### DIRECTOR'S CORNER

BY GEORGE PORTLOCK  
PRESIDENT, GRF

I find it necessary to write to you through the Directors Corner on misleading statements being circulated through the Internet.

\*

#1 The Board of Directors of GRF have no plans in place to sell or move the stables. Some board members may have expressed their thoughts and opinions in regard to this. However, they are NOT those of the Board of Directors. When in the future land use and plans are discussed all board members will have the opportunity to express their opinions at these meetings. These meetings will all be open to the public and residents will be invited to express their opinions as well. Open discussion does NOT infer that any particular action will be taken without due process, and all input from interested parties. Your GRF board does not operate in secret!

?

If a certain United Board Member wants me to look him in the eye and tell him that there is no plan to sell or move the stables, just name the time a place or do you really want to know the truth? I find so much false and misleading information circulating in the community. All should get their facts straight before disseminating inflammatory heresy

What more can be done to keep you informed? We use T.V., paper, committee meetings and workshops. All of the members of the four corporations live here and do their very best for the community. I think it about time that facts are received before putting out false information. Had I been called first to verify this information there would not be the alarm or concern over the future of the stables that has been created. We must all be more careful about verifying information before its spread as truth.

PLEASE READ
